

WEBCASTER **X1**

Quick start guide

How to use your **Webcaster X1** to stream live to YouTube

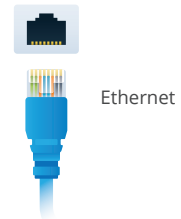

1

Use an HDMI™ cable to connect your HDMI camera to the HDMI In port on the back of Epiphan **Webcaster X1™**.

2

Using an Ethernet cable, connect **Webcaster X1** to your network. (The network must have access to YouTube so **Webcaster X1** can send your stream to YouTube.)

3

Plug the provided power cable into the back of **Webcaster X1** and turn on the device by toggling the ON/OFF switch.

4

See your YouTube pairing code on the front of **Webcaster X1**.

5

In a browser on your computer or phone, go to <https://www.google.com/device>

After logging in, enter the device pairing code from the front of your **Webcaster X1**. Click **Next**.

NEXT

6

Click **Allow** to let YouTube know it's okay to send your email address and profile data to **Webcaster X1** and to let **Webcaster X1** stream video to YouTube for you. You're live!

Allow

7

To manage your live event on YouTube, go to https://www.youtube.com/live_dashboard.

DASHBOARD

8

When you're done your stream, turn off **Webcaster X1**. YouTube automatically ends your event and if applicable, processes your event into a video for replay.
